C.R. NO.

255196

Briefly summarize the investigation describing your efforts to prove or disprove the allegation(s). Indicate whether witnesses or evidence support or do not support the allegation(s).  
In sustained cases ONLY, copies of the accused member's Summary of Previous Disciplinary Actions and Record of Previous Complimentary History will be included as attachments.

R/Sgt. was assigned to investigate CR# 255196 on 22 Jul 99. R/Sgt. contacted complainant, ██████████, via the telephone, and interviewed her regarding her allegations (attachment 2). Complainant related that she was involved in traffic crash, and that the other party involved would not give her his information, but that he had given it to salesman at Metro Ford, who in turn would give it to her when the police arrived. She stated that the police arrived and sent her inside to get the information, but upon going inside the salesman did not provide the information and when she returned outside the police left the scene without making a report. R/Sgt then went to Metro Ford and spoke with the General Manager and the two salesmen who were on the scene the day of the incident, (attachment3). The general manager indicated that he remembered the incident and that the complainant was highly agitated, screaming and yelling at the police and the salesmen, but had no specifics of any conversations. The salesmen stated that they remembered the incident but they did not have the other party's information, and if the complainant and police thought they did, they were mistaken. The accused officers submitted to-from reports, (attachments 7 & 11) stating that they responded to a property damage only accident at Metro Ford and that they were met by the complainant who was extremely irate. The officers stated that the complainant told them that the other driver left his information with a salesman at Metro Ford, and that the salesman would provide it to her when the police arrived. The officers explained that once she had the information of the other driver, that she could go into the 008th district and make a police report. The officers stated that the salesman indicated he would provide the complainant with the information. The officers then left the scene, coming clear with a code of 18-P, believing that all parties were satisfied.

R/Sgt. used the event number to obtain the location history, (attachment 13), which indicates that assignment was dispatched as a property damage only accident. R/Sgt. referred to G.O. 98-1-2, II-B, hit and run traffic crashes. This order indicated that if an individual remains at the scene until he has reasonably identified himself as being involved in a traffic crash, that the crash is not a hit and run. Given the fact that the officers were informed by the complainant that other driver had provided his information to a salesman, along with the salesman's indication that he would provide the information to the complainant the officers were in compliance with Dept. policy when they sent the complainant into the 008th district to make a one-party report. The fact that the salesman was unable to provide the information was most likely a miscommunication caused by the agitated state of the complainant who was screaming and yelling at both the police officers and the salesmen. As a result of the above investigation, R/Sgt. is unable to determine if the officers are guilty of the allegations, as it is reasonable to assume that the officers believed that all parties were satisfied and that they complied with Dept Policy when they sent a property damage only crash into the 008th district.
